---

This program will focus on background information needed to teach fertilizer certification and answer farmers’ questions. Time during the inservice will be included for questions on the topics. The fertilizer certification presentations (with speaker notes) will be available for educators.

Registration is free and includes lunch. Pre-registration required, please sign up at nutrienteducation.osu.edu

The inservice will be available live on Carmen Connect. Please register for the inservice and indicate if you are planning to join us virtually.
