

Corn Field Night

With 3-hour training for those needing Fertilizer Applicator Certification

Field Night

Come see our research trial regarding side dressing with different nitrogen sources. Light refreshments will be served.

Fulfills certification requirements

The field night combined with a meeting immediately following will fulfill the three-hour requirement for applicators who need the agricultural fertilizer applicator certification.

Who needs the agricultural fertilizer certification?

Fertilizer certification is required if you apply fertilizer (other than manure) to more than 50 acres of agricultural production grown primarily for sale. If you hire a co-op or other custom applicator to make your fertilizer applications, you do not need the certification.

What will be covered in the training?

Best management practices will be the basis of the agricultural fertilizer certification training with a focus on fertilizer applications that have the appropriate rate, timing, placement and source.

Tuesday

July 25, 2017

6:00 p.m. – 9:00 p.m

3848 White Road Southeast

Washington Court House, OH
43160

Pre-registration is required.

There is no charge for the program, but pre-registration is required because of limited space in the room.
